We sustained significant damage to our snowmobile trail system on September 21, 2016. Two large culverts were completely washed out on the Hamilton Falls (HF) snowmobile trail making this trail impassable. In addition, there were also 3 other culverts that were partially blown out and in need of armoring. This section of trail will not be reopened until the storm damage is fixed. Other damages included a bridge washout that needs to be filled back in, without doing this sleds will be shut down on this bridge as it is a town bridge (not an ATV trail). Funding is also being requested from the ORV program for the HF project, as this is also a funded snowmobile trail. Amount sought from ORV council would be \$7,657.
